

## Instructions for the Rosh Hashanah Wheel

### You will need:

- Templates
- Small pieces of coloured foam
- Split pin
- Glue
- Scissors
- Pen

### What to do:

1. Cut out the different template pictures from the white paper and glue onto the small pieces of coloured foam. If you don't have foam just cut and colour in the pictures!
2. Cut out the foam shapes and use a pen to decorate.
3. Stick each shape in its appropriate section on the A3 card.
4. Cut out the small circle template from the yellow card and the big circle from the A3 card.
5. Decorate the yellow circle for Rosh Hashanah and place in the centre of the A3 circle.
6. Take the split pin and pierce it through the middle of the yellow circle and A3 circle, opening the "wings" at the back to secure your wheel.
7. Now you should be able to twist the wheel and see all the Rosh Hashanah symbolic foods and their blessings separately.
8. Have a happy and healthy new year!
